Androgyne and post-humanity: possible synthesis

E.O. Tishchenko, L. Zharov

Androgyny as a concept and archetype implies the formation of a positive outlook on the problem of the complementarity of male and female principles in each person, regardless of his other social qualities, including age. The concept and image of Androgin permeate the entire culture of mankind from prehistoric times to the present day.

Keywords: *identity, androgynism, essentialism, medicalization and pedagogization, transsexuality, posthuman*
