UDC: 33

**Global crisis-management and prospects of efficiency increase of education clustering**

***O. Tkacheva, A. Chistyakov, E. Fandeeva***

*The economic and social effects in the field of global crisis management in connection with the Bologna process, as well as the expediency of creation of educational clusters are considered. The most important advantages of clustering in the sphere of higher education are presented, as well as the prospects for obtaining maximum effect within the global crisis management, connected with the creation of educational clusters.*

**Keywords:** *global crisis management, Bologna process, educational cluster*
