

## **On the formation of income and expenses of regional budgets**

***O.P. Gorbaneva***

*The structure of income and expenditure parts of regional budgets of subjects of Russia is researched. The sources of income of these subjects are analyzed. The conclusion is drawn that there is a significant difference in the structure of the revenue and expenditure parts of the budget both for the regions of Russia as a whole and for the regions of its European part. The dynamics of changes in the structure of the revenue and expenditure parts of the regional budgets of the subjects of Russia for different time intervals is studied within the scope of the investigated range of its change. The growth rates of consolidated budget revenues in 2016 are compared with 2015. The growth of expenditures of consolidated budgets in the regions of Russia is analyzed at the considered time interval.*

**Keywords:** *Regional budget, structure of budget revenue and expenditure, dynamics of budget structure change, growth rates of revenues and expenditures of consolidated budgets*
