Factor of war in the structure social transformations

A.A. Shmatko, A.D. Pokhilko, M.A. Gubanova

Factor of violence or super violence (war) played in the history of social forms creation positive role of the engine of social progress. Currently, the ability to conduct a factor of hot or cold war continues to be the criterion of efficiency of development of a country, an indicator of some sort of "ranking" state. Ho-wever, new ways of thinking, which led it Einstein, Russell, Schweitzer and other humanists requires taking into account the price of the violent progress. Accounting anthropological modality of social change becomes imperative socio-historical transformations

Keywords: war, social transformation, history, politics, culture
