

**P.I. Novgorodtsev study on law value nature**

**M.A. Isaichev**

*The article penetrates the problem of axiology of law nature in the P.I. Novgorodtsev's law conception. The author draws attention to the Novgorodtsev's methodology of criticism with respect to the alternative conception of history school of law and law sociologism. According to P.I. Novgorodtsev the criticism of historical school of law should not be purely denying, but should be based on the perception of positive experience of this school. The positive experience is that this type of understanding appears on the basis of the just criticism of drawbacks of the classic school methodology of the natural law.*
