Legitimate behavior as the basis of the formation of the law in civil society

I.V. Voronova, V.I. Shepelev

It is based urgency and practical value of the formation of the predictable and stable legitimate behavior as the bases of the formation of the proper lawful order, which ensures priority rights and freedoms of man and citizen in the developing civil society. The special features of the mass legitimate behavior, based on the high level of legal conscience and lawful culture, are revealed, and are characterized the mechanisms of the motivation of exceptionally legitimate behavior even in the most complex vital circumstances. The value nature of lawful order and mass legitimate behavior is emphasized precisely under the conditions of the functioning of civic community.

Keywords: *civil society, rule-of-law state, lawful order, legitimate behavior, right and the freedom of personality, positive legal conscience, lawful culture*
